

Stand up for **KOSOVO**

A fantastic evening of live music, comedians and DJs to raise funds for representatives from the Albion in the Community project to take part in a cycle trip across Kosovo.

The *Tour de Kosovo* has been developed to raise awareness for a major mine clearance operation, as well as social development projects near the city of Peja, and to increase ties between UK and newly-independent Kosovo.

This is an exciting opportunity for the award-winning Albion in the Community team to take the international stage in raising awareness for a ravaged nation, and in assisting with community projects in Kosovo.

Come down, have a great night, and support this very worthy cause.
